DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 11 – 15 and 30 – 54 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 11 – 15 require that the ferroelectric film “comprises silicon, or silicon and germanium.”

The disclosure only mentions adding a PbSiO_3 catalyst to the ferroelectric film. There is no mention of adding silicon alone, as the claim implies, nor do the original claims and specification mention germanium.

Response to Arguments

2. Applicant's arguments filed February 15, 2006 have been fully considered but they are not persuasive.

Applicant argues that specification has support for having Si and Ge as atoms in the ferroelectric, citing lines 22 – 27 of page 13 of the specification. There is no mention of Ge atoms in the cited section, nor any other place in the specification. The cited portion merely recites using a catalyst of PbSiO_3 . Applicant further asserts that “The amount of silicon is selected in a range which is sufficient to maintain the crystal feature of a ferroelectric and reduce the crystallization temperature.” However, Applicant has

not disclosed that range and one having ordinary skill in the art would be required to use undue experimentation to arrive at the proper concentration.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
